In Minneapolis-St. Paul, the nation's healthiest urban region, almost everyone lives within a 10-minute walk of a good public park. Shouldn't we all, coping with chronic, rare, and invisible diseases? Because I write about illness and medical research, and the professionals who try to help those with medical problems, I find myself wanting to recommend links that don't really fit into the other categories on this site or even into the concept of the site.

- Essentials of game theory: a concise multidisciplinary introduction synthesis lectures on artificial intelligence and machine learning
