Critical Issues in Mathematics Education Montana Mathematics Enthusiast Monograph Series in Mathematics Education University of Montana. The word critical in the title of this collection has three meanings all of which are relevant.

- The mathematics enthusiast monograph series in mathematics education was established by Bharath Sriraman. The name of Zoltan P. Dienes (1916) stands with those of Jean Piaget and Jerome Bruner as a legendary figure whose theories of learning have left a lasting impression on the field of mathematics education.

- Critical issues in mathematics education - The chapters address fundamental issues such as the relevance of school mathematics in people’s lives, creating a sense of agency for the field of mathematics education and redefining the relationship between mathematics as discipline, mathematics as school subject, and mathematics as part of people’s lives.
